

PATTANAPONG PLODRUM

DIGITAL OPERATIONS & E-COMMERCE SPECIALIST

pattanapong.p1999@gmail.com | 086-385-2431 | Sutthisan, Bangkok 10400

EDUCATION:

SRINAKHARINWIROT UNIVERSITY

- College of Social Communication Innovation (Computer for Communication)

OJT EXPERIENCE:

COMPASS HOSPITALITY

August 2022 – December 2023

Digital Marketing Executive

- Sending promotional emails, newsletters, or campaigns to customers or subscribers.
- Analyzing website traffic, campaign performance, and customer behavior using tools like Google Analytics.
- Promoting brands or products on social media platforms like Facebook, Instagram, TikTok, and LinkedIn for the Hotels in the chains
- Website & CMS Operations: Managed and maintained multi-property hotel and corporate websites built on WordPress, ensuring high content accuracy, optimal user experience (UX), and seamless visual presentation to drive direct bookings and inquiries.
- On-Site Audit & Content Creation: Conducted regular on-site inspections across hotel properties to audit web content accuracy, produce localized digital marketing assets, and gather high-quality media for web and social distribution.
- Stakeholder & GM Collaboration: Partnered directly with General Managers (GMs) and property leaders to align localized marketing strategies, identify digital growth opportunities, and enhance online brand presence for each property.

PACIFICA GROUP

February 2024 – September 2026

Website Administrator

- Web & UI Building: Developed responsive websites using HTML, CSS, JS, and Tailwind CSS. Translated Figma designs into pixel-perfect code.
- Platform & Features Setup: Customized themes, product pages, and checkout flows on Shopify (Liquid) and Magento. Built and integrated custom features like survey forms and lead capture modules.
- Component Development: Built interactive UI features including navigation menus, filter systems, banners, and promotional popups.
- Support & Vendor Management: Coordinated directly with third-party vendors and Enterprise Support (e.g., Adobe Commerce) to resolve critical platform issues and request server capacity scaling.
- System Optimization: Optimized site speed, image assets, and script loading for better web performance.
- Debugging & Log Analysis: Investigated technical bugs and analyzed system logs to deploy fast issue resolutions.
- Quality & Version Control: Used Git/GitHub for code management and conducted cross-browser testing across mobile and desktop devices.
- Analytics & Technical SEO: Configured GA4 tracking and Technical SEO (meta tags), while resolving data discrepancies like GA4 "(not set)" issues across page titles, traffic sources, and event parameters.

CORE COMPETENCIES:

- **Frontend Development:** HTML5, CSS3, JavaScript (ES6+), Tailwind CSS, Responsive Web Design, Figma to Code
- **E-Commerce Platforms:** Shopify (Liquid), Magento / Adobe Commerce, Theme Customization, Checkout & Catalog Setup
- **Technical Operations:** Incident Management, Log Analysis, Technical Troubleshooting, Performance Optimization
